

**Luddy School of
Informatics, Computing, and Engineering**

Luddy Tech Fest

Explore, Build, Play

Discover the future at Luddy TechFest!

Luddy TechFest is the premier celebration of all things computing and engineering on the Indiana University Bloomington campus, inviting friends, family, and community members to visit beautiful Luddy Hall and explore the incredible world of human-centered innovation.

Whether you're a curious middle or high school student interested in technology, a family looking for a fun educational day together, or a teacher searching for classroom inspiration, this event is open and welcome to all—no prior coding or technology experience required!
